

DevOps Talks Conference (DOTC)

DevOps Talks Conference (DOTC) aims to attract leaders and engineers who are practicing DevOps in startups and leading-edge enterprise companies. World-class speakers from cutting-edge IT startups and enterprises such as CHEF, New Relic, Google Cloud, Rancher Labs, JFrog, Scalyr, CyberArk and Microsoft Azure present about DevOps, Cyber Security, Containers, Cloud, Serverless, SRE, Blockchain, ChatOps and other advanced high tech subjects and new technologies.

- Explore the latest thinking, leverage from industry experts and world-class leaders
- Learn about the latest practices and technology which will help build and maintain resilient software systems
- Drive your DevOps transformation
- Boost tech team performance with DevOps
- See how your culture impacts your operations
- Attend optional workshops

2020 CONFERENCES SCHEDULE

Enterprise Cloud Conference (ECC)

Driving and maintaining growth is at the forefront of the technology industry; growth is driven by innovative technology, products, and services, as well as the clock speed at which they need to be delivered to the customer. Competition is fierce.

ECC enables the Cloud Community to share experiences, ideas and provide a learning platform from which the exchange of knowledge has proven to be a powerful thing.

ECC connects heads of technology and platform engineering, cloud software engineers and architects, infrastructure and data engineers, front and back end developers and so many other experts in the field, as well as those in various StartUps and Leading Enterprise Companies who have a vested interest in working with this technology.

Engage with Tech industry leaders, showcasing new innovative approaches; adopt new and exciting technology and enhance your own ecosystem development and practices.

PREVIOUS SPONSORS

Discover

Discover new technologies and practices by joining thought leaders, decision makers, DevOps practitioners and Cloud Native communities. With amazing local and international speakers, you'll learn from experts, how to build, secure and release software faster.

Opportunities

Boost your tech team's performance via current DevOps Practices – as companies share best practices, as well as experiences on how the DevOps Culture has been adopted and the impact it has made on their teams.

Technology

Learn about the latest technologies, products and services from global leaders

Cloud

Immerse yourself in the world of Cloud; exchange insights; discuss cyber security; find out how other organizations use it, develop it and how it has impacted their business.

WHAT TO EXPECT

- 2 Day conference with national and international speakers
- Engage with globally recognised companies and speakers
- Visit exhibits
- Collaborate with others in your field
- Network at our nightly cocktail functions
- Attend optional workshops

DOTC

RATED ONE OF THE TOP CONFERENCES, NOT TO BE MISSED

Australia | New Zealand | Singapore

KEY TO DIGITAL TRANSFORMATION

"I'M LOVING THE CONFERENCE WE ARE HAVING A GREAT TIME ITS KIND OF INTERESTING, BECAUSE I HANG OUT A LOT AROUND SILICON VALLEY AND YOU HEAR A LOT ABOUT CULTURE AND DEVOPS VERY OFTEN, AND YOU COME OVER HERE AND THE MESSAGE IS ECHOED WITH YOU GUYS."

John Willis,
Former Director Development Ecosystem at Docker Inc
and Co-Author of the DevOps Handbook

Shlomi Ben Haim

Co-Founder and CEO

Had the pleasure in doing DevOps Talks 2019 in Australia. The combination of the right audience and great content was something you just couldn't miss! Melbourne's DevOps community, a blended engineers and managers crowd, and the impressive speakers' line-up made it one of the best conferences I attended this year. Great job Igor and team, thanks for the opportunity.

ELIZABETH LAWLER

Vice President, DevOps Security

DAVE CORLET

Head of Engineering

NATHAN HARVEY

Developer Advocate

JUSTIN GOULD

Head of Product Engineering Practice

Alena Prokharchyk

Senior Manager, Engineering

DevOps Talks was one of the best conferences I had the honour to attend. The content and the audience spiked a log of thoughts, conversations and ideas. Igor Goulko - the founder - goes above and beyond making sure everyone gets the best experience. As a speaker, I appreciated preliminary meetings with the conference board and fellow speakers; it really makes travel experience and logistics smooth. As an attendee, I loved the variety of presenters and topics. I would recommend DevOps Talks to anyone who wants to learn about what's new is happening in the DevOps space, and experience the great vibe of Australia and New Zealand DevOps community.
